### Board Shrinking Machine

The major field is shrink wrapping machines for industries. Our rich experience has given us the opportunity to cover all types of companies from the smallest to the really large ones according their specification and we are represented in different branch of industries.

- Flooring industries (Parquet-, Laminate-, Cork-, and solid wood).
- Moulding industries (panels, strips, and solid wood).
- Kitchen and bathroom industries.
- Furniture (knockdown).
- Board industries (bench-, ceiling-, wall boards).
- Door and window industries.

#### Description:

Board shrinking machine can be the automatic packaging line for profile, board, window, door...with one side sealing and full sides packaging,... which is with highly efficiency and nice packaging for saving labor and material cost. These machines can also be delivered in high capacity performance and also in flow-pack technique.

#### Technical Features:

1. It can be combined with an automatic production line for automatic shrink wrapping, which including feeding the packing material, sealing, material recover...
2. Full sides shrinking packaging
3. Adopts photo electricity for inducing the products for fix the position.
4. Two feed-in modes, auto/manual can be choosing,
5. Adopts PE or POF film on rolls, and the machine will seal other three sides automatically.

Another Machines

Door Shrinking Machine  
The machine is special designed for door packaging. The package concept is an integral part of the packaging.

Copper Coil Packing Machine  
The machine puts a tight layer of film over all surfaces of the coil.

- 6. According to different collocations for the machine and different products
- 7. Constant temperature heat sealing and cutting system is suitable for PE. PVC. POF etc, industrial standard shrink films.
- 8. The sealing width is adjustable for different products
- 9. The front feed in systems speed is adjustable, combines a worktable at the end of the tunnel, makes whole machine highly automatic, it runs automatically without an operator comes true.
- 10. Hi-speed hot air circulating shrink tunnel.
- 11. Sealing system: permanently heated seal bar with easy-exchangeable sealing blade without odorous, temperature controlled and detected by PLC

Technical Date

- 1. Sealing part
- 2. Shrinking part

The advantage of the door packaging by board shrinking machine:

- 1. Nice packaging surface
- 2. Material costs lower
- 3. Easily maintaining.
- 4. Full sides sealing
- 5. Highly efficiency

The disadvantage of the door packaging by board shrinking machine:

- 1. Power consume during 30-50KW/H

Board wrapping machine  
That is with highly efficiency and nice packaging for saving labor and material cost.

Panel wrapping machine  
The Panel wrapping machines are available in many different solutions
